In the specification, paragraph 002 has been amended to reflect a relationship to United States Application Number 10/513,900.

We believe claim amendments submitted are responsive to and appropriately address the examiner's concerns, as reflected in the Office Action dated April 21<sup>st</sup>, 2006 (see especially amendments to Claim 1). Additional dependent claims have been added to describe some additional features and are supported appropriately by the specification.

We respectfully request that these amendments be allowed.

Thank you.

Respectfully Submitted,
